

Lou's Tyres Ltd, Scunthorpe – North Lincolnshire

When Lou's Tyres Limited carry out work to a customer's vehicle, we always have their needs at the forefront of what we do. We like to explain what we are doing and the costs before we do anything to a customer's vehicle.

When we decided at Lou's Tyres Ltd that we wanted to save the planet and have Solar Panels fitted, we asked Giles and Stuart to come and explain the benefits and savings to us.

We were very impressed with their knowledge and the prices of the panels was very competitive also.

We proceeded with having the Solar Panels fitted by Flixborough Eco Technologies Limited.

The contractors that Giles used were very polite, efficient and are a good advert to Flixborough Eco Technologies.

I have and will continue to highly recommend Giles and his team with confidence.

We are looking forward to our first feed in tariff payment.

Many Thanks,

Simon Shorthose
Director
